

ACCESS SOPHOS USER PORTAL

Please use the URL: <https://197.248.207.141/userportal/webpages/myaccount/login.jsp> to login in to the Sophos User Portal. Login using the username and password provided

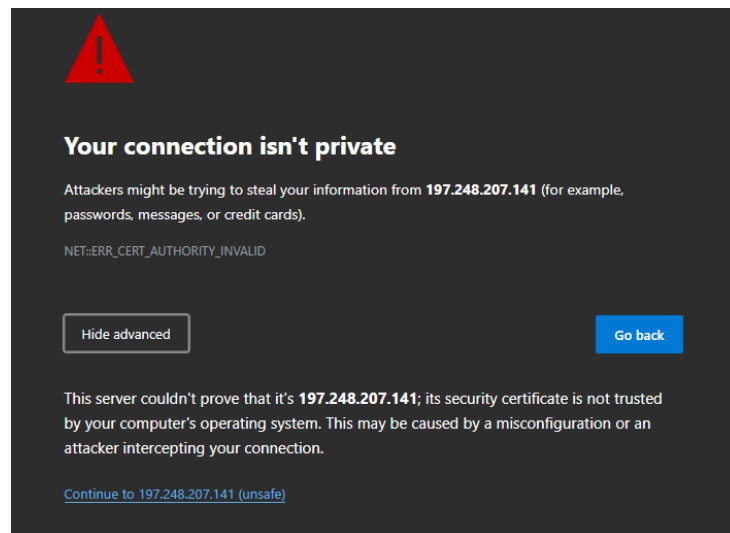

Username: **username**

Password: **Passw0rd01!**

Incase you encounter the following, click on **Advanced**

And click on **continue to the site**

How to obtain your OTP token and passcodes

End-users scan the OTP token through the user portal using Sophos Authenticator. The authenticator then provides passcodes.

The following steps are executed by an end-user:

1. On a mobile device, download [Sophos Authenticator for Android](#) or [Sophos Authenticator for iOS](#).
2. From the user portal on <https://197.248.207.141/userportal/webpages/myaccount/login.jsp>, the OTP token will be displayed as shown below:

User portal for

Description

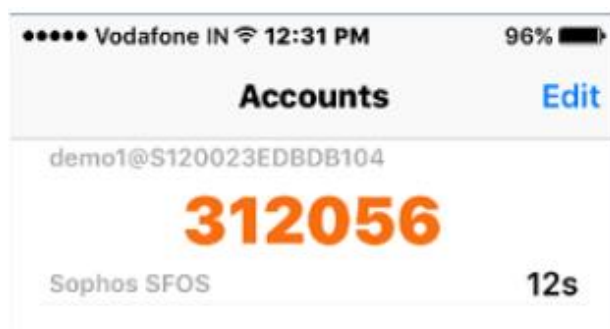

To enter the user portal you have to authenticate with a one-time password. Scan the QR code below with Sophos Authenticator on your phone. The displayed, is the one-time password you have to enter to log in.

Auto-generated OTP tokens

Account: demo1@ecs-egpaf-fw
Secret (HEX): fd78b1ec90cf60a632ee5ae8adb63de6
Secret (BASE32): 7V4LD3EQZ5QKGYX0LLUK3NR6 Y
Timestep: 180s

3. Scan the OTP token using Sophos Authenticator on your mobile device.
4. Sophos Authenticator begins creating passcodes as show below:

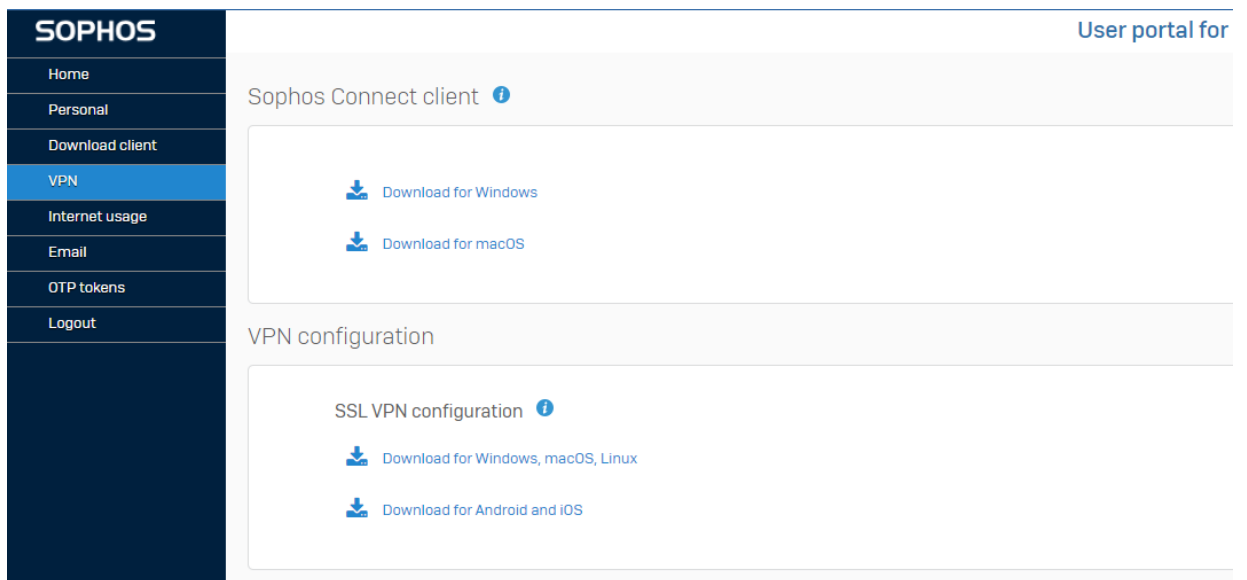

5. Go to user portal again and log on by typing the password using the following format: <user_password><generated_passcode>.

For example: From the screenshot above, your password will be

Passw0rd01!312056

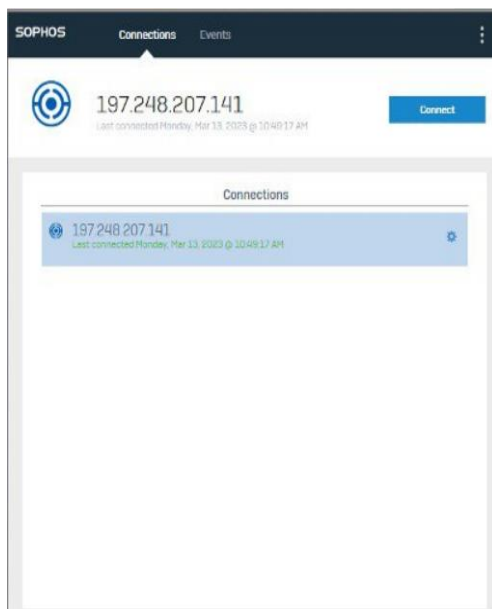

6. Once logged in, you are advised to change your password
7. Click on **Download for Windows** to download your **Sophos VPN client**
8. Click on **Download for Windows, macOS, Linux** to download the **SSL VPN configuration**.

9. Install the downloaded client.**.msi** file.
10. Once installed, double click on the **SSL VPN configuration** in order to **import your profile**.
11. Once this is done, **start the VPN authentication by clicking on the blue icon marked with C symbol in the task bar**:

12. A new window will pop up as shown below, **click on connect** and **proceed** to key in **username and password** as illustrated below.

Username: **username**

Password: **PasswOrd01!** followed by passcode on the Sophos authenticator app without space.
